## Live the languages

### Language lessons

As a year-round language school, teaching languages is our specialty. All programs (except the Intense Mountain week) include 15 hours of language workshops per week.

Our workshops are:

- Lively and fun – participation is an obligation!
- In small groups (maximum 8 per group)
- Taught by native speakers who are qualified and experienced in the programs designed for the Cambridge Assessment English and Alliance Française examinations
- Focused on giving the campers confidence to communicate in a foreign language.

Every morning, the campers have 3 separate language workshops (according to their language level) focusing on the language, communication and drama.

During the drama workshop, the campers work on a play or sketches in their chosen foreign language to perform at the end of the week.

But it's not all learning...

### The activities

Every afternoon we have different activities and games organized by our staff and professionals. The activities are based around the main themes of Water, Mountain, Fun & Culture. We use the large number of facilities in and around Megève and the campers will even have fun in bad weather! The activities are organized by age group so the children can practice their language skills with native speakers and make friends for life. Every week we have a different camp team game where all ages, sexes, nationalities and languages are mixed. The children learn to work together through communication and teamwork to win for their team.

Creative workshops are also proposed at the end of the afternoon for the children to learn new skills and show their creative sides.

In the evenings for the full-boarders, we have quieter activities (although not always!). This is the time to chill and 'hangout' with friends and the counselors and to exchange emotions, ideas, laughs...

Every Sunday we have a field trip to visit the Mont Blanc glacier, the beautiful lake and town of Annecy and many other local sights.

You can also combine our activities with other options...

### The setting

*Our summer and winter camps are located in Megève, an elegant French Alpine resort with an international reputation.*

Megève is a luxurious traditional mountain village located in the heart of the Savoy Alps, close to Switzerland and Italy. It has become famous as a winter ski resort but it still retains its charm, rich in history. In the summer it comes alive with international jazz and classical music events but its attraction is the mountains surrounding the village with magnificent views of Mont Blanc and typical mountain activities.

**Megève is a safe and secure village far from the city life.**

The nearest international airport is Geneva only one hour away by car.

### Supervision and safety

We understand that the safety and security of your child is the number one factor when sending them to a camp. At International Language Camps many of our team members have been with us for several years. From the Director to the teachers to the counselors, they all have experience and qualifications for working with children and they are all bilingual. Our ratio of one adult for five campers is double the legal requirement by the French government which means we take more individual care of your child. The Director knows each camper individually and can be contacted 24 hours a day if you have any concerns. The counselors are with the children at all times even during the activities with the professionals. We have a motivated team who work well together and act as role models for the campers.

# Exceptional accommodations

At ILC we consider the quality of the accommodations to be one of the essential conditions for the well being of our campers and our programs are organized solely in a top quality hotel. The hotel, in the center of Megève, has a typical mountain charm with all the modern comforts. Children are allocated their rooms depending on the following criteria: same sex, same age group, different native languages.

**As safety and security are of top importance in our camps,** the counselors' rooms are situated next to the children's rooms. We are very conscious of allowing the campers time to rest, as needed. Bedtimes vary, therefore, depending on their age and the activities planned in the program.

### Meals

The children are served their meals in the restaurant and the menus are prepared by the chef who takes into account a balanced diet and the tastes of the children. We can organize special menus (vegetarian, gluten-free, for religious reasons, etc); we just need to be advised in advance.

### The facilities

The language lessons and the creative and artistic workshops are held in the school in Megève minutes from the hotel.

## Optional one week program : TENNIS, GOLF or CLIMBING lessons

This year we have optional afternoon sessions with professionals for one week during a 2 week stay :

The Camp Director reserves the right to dismiss any child, without refund, whose behavior is not, in his/her opinion, compatible with the smooth running of the organization. Any charges incurred to send the child home will be at the expense of the parents.

### Conditions of Cancellation

It is highly recommended that you take out cancellation insurance in your home country in order to be fully reimbursed in case of cancellation before the start of the camp, or before the planned departure date (for example for illness, accident...)

The deposit of 1000 Swiss Francs (included in the price) is non-refundable and non-transferable.

In case of cancellation you will be charged as follows:

5% of the total cost of the camp if we are notified of your cancellation by registered letter more than 60 days before the start of the camp.

25% of the total amount under the same conditions between 60 and 30 days before the start of the camp.  
100% of the total amount for notification less than 30 days before the start of the camp.

There is no refund for any stay which is shortened (even in the case of force majeure). The above fees for cancellation or shortened stay compensate for our financial loss due to charges already incurred on your child's behalf. All cancellations or shortened stays must be notified by registered mail with acknowledgment of receipt.

### Practical information

All amounts are due in Swiss Francs; for payments made in other currencies the conversion will be made using the daily rate. Any difference will be credited, or additional payment requested.

Acceptance of your child will be confirmed upon receipt of the total amount due.

As the number of participants is limited, we recommend that parents send the enrollment form as soon as possible. This is particularly recommended for the first sessions, which become full very quickly.

### Image Rights

During camp, photographs will be taken which may be used for publicity purposes. Please advise us in writing if you do not wish us to use your child's image.

Smoking and the consumption of alcohol by campers is strictly forbidden.

### Departure and Return

With accommodations:

Participants should arrive on Sunday at 5pm at the hotel. Campers leave at 6pm on the last Saturday of their session.

Without accommodations:

Every morning campers should be at the school at 8.45am. Parents/guardians can collect them every evening at 6pm at the same location.

At the departure and the return, the presence of an adult at the meeting place is obligatory. If it is not the parent or the legal guardian of the child, a signed authorization is required stating the name and address of the person coming to meet the child.

For other departures, a written authorization from the parent/guardian is required indicating the specifics of the return journey along with the person accompanying the child. No child will be allowed to depart without an adult accompanying them.

We will provide a cell phone number to use in case of emergency.

If a child is required to leave the camp early for any reason, the departure will take place the following day after breakfast with one of the parents or the legal guardian.

Arrivals and Departures by Air:

On arrival and departure days, a camp representative will welcome and accompany the campers at Geneva airport. At their departure, the children will be assisted with check-in and customs formalities. If they are travelling as a UM (unaccompanied minor), they will be escorted to the plane. The service include transport by car and the parent are informed of the departure. For organizational purposes, information concerning the arrival and departure of the participants must be confirmed in writing at least two weeks before the date of the journey. Individual arrangements and last minute changes will be invoiced accordingly.

### Medical Care

During the camp, ILC will advance the costs for the following medical fees:

- transport and visit to the doctor
- medicine.

At the end of the stay, the parents must reimburse these costs. In case of illness, visit to the doctor or accident, you will be advised by the Camp Director as soon as possible. No medication can be taken without prescription during camp.

### Responsibility

The camper and his/her parents or legal guardians are informed and accept that certain sports and activities (notably rafting and the adventure park in the trees) as well as the transportation (motor vehicles, train, ski lifts, boats etc) are undertaken by third parties who are acting in their own names and under their own responsibility.

The parent or legal guardian confirms by signature that they accept that their child participates in the sports and leisure activities organized during the camp. They understand and accept the inherent risks of these activities and they will not hold ILC responsible for any accidents.
